Dr. J. D. Henney
Commissioner
Food and Drug Administration
5600 Fishers Lane, Room 14-71
Rockville, MD 20857

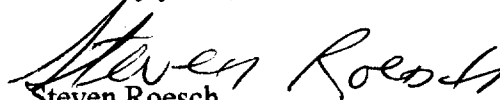

Dear Dr. Henney:

I urge you to put a stop to the use of antibiotics to promote livestock growth when those specific antibiotics are being used to treat people. This strategy puts public health at risk by jeopardizing the efficacy of antibiotic treatments.

Prominent public groups as well as the Centers for Disease Control and Prevention have voiced their concern about this issue; last year the European Union banned adding human-use antibiotics to livestock feed, something that we in the U.S. should do as well.

Thanks for your attention in this matter!

Sincerely yours,

Steven Roesch
